STATUTORY DECLARATION

I, Rajiv Natarajan, am an employee of Infosys Limited, worked from 09th January 2006 to present as Technology Lead. I wish to affirm the following about my colleague, Mr Manjit Ullal,

I have known Mr. Manjit Ullal for nearly 7 plus years personally and 3.5 years professionally. I have been his Technology Lead at Infosys for Finance project and was responsible for assigning and tracking his daily activities.

He is working at Infosys Limited, from 02/08/2010 to present, as a full time employee. His designation at the company is Technology Analyst. During his tenure at Infosys, he has worked in multiple locations as per below schedule:

Company Name	Location	Date (From – To)
Infosys Limited	India	2nd August 2010 – 08th May 2014
Infosys Limited	Singapore	09th May 2014 - Present

During his tenure at Infosys, following were his roles and responsibilities:

➤ Developing/writing software as per requirements, designs and technical specification in accordance with company standards end-to-end throughout a SDLC cycle

- Contribute to the process of translating complex business and regulatory requirements into solutions
- Contributed in developing back end software modules, scripts to implement functionality and perform code deployment to production.
- Testing, debugging, diagnosing and fixing bugs in application using standard protocols
- Plan, evaluate, migrate, develop, implement, configure, test and roll out systems (software)
- Creating tools using various frameworks to automate user activities applying rigorous testing and performance processes
- Provide expertise in developing strategies for project/software activities
- Performing analysis and documentation of as-is capabilities about business processes, technology, etc.
- Kept track of Change Controls and updated test conditions, test scripts and traceability matrix documents
- Executed Sanity Testing, System Integration Testing and Regression Testing
- Technologies worked on: Unix, Java, J2EE, Python, HTML, JavaScript
- Frameworks used: Spring, Hibernate, Spring AOP, Spring Boot
- Database worked on: Oracle, MySQL and Mongo DB
- Tools user: Maven, Jenkins, Git and SVN

31 JAN 2018
